# Dear Shareholders & Friends:

e celebrate fifteen years of impactful community development lending by looking back on our accomplishments in 2011. Clearinghouse CDFI attained our twelfth consecutive year of profitability while once again realizing a new record-level of corporate earnings. Our lending continued to address a variety of unmet credit needs while improving the lives of low-income residents and families. We are excited about our recent geographic expansion into the State of Nevada and look forward to sustained growth and continued impact in our new two-state service area.

Eighty-two loans, totaling over \$97 million, were funded in 2011. Lending into neighborhoods with high single-family home foreclosure rates represented a significant growth area for us. Additionally, we partnered with Affordable Housing Clearinghouse to purchase and rehabilitate 24 homes in some of the most distressed neighborhoods throughout the state. We also closed \$57 million in larger highly-impactful New Markets Tax Credit (NMTC) projects in 2011.

Our pre-tax profit for 2011 was \$4.33 million; a 14% increase over 2010. We received new equity investments in 2011 of \$1.1 million. For the seventh consecutive year, we paid a dividend to all "Class A" shareholders providing a consistent and reliable return on their equity investment. In 2011, we became the first non-depository CDFI in the nation to borrow from a Federal Home Loan Bank, ending the year with \$16.4 million in outstanding debt from the San Francisco FHLB.

Douglas J. Bystry President / CEO

Alan Orechwa Chairman of the Board

Slan Orechwa

Nevada represents a historic expansion for Clearinghouse CDFI. Unemployment and foreclosure rates in Nevada are the highest in the nation. Consistent with our mission of addressing unmet credit needs, we look forward to making impactful loans in a state that has lost many regional lenders. We bring our strong track record of successful deployment and community development capital to this state that has suffered greatly. We look forward to working closely with new investors and stakeholders to create jobs and assist in the economic recovery of Nevada.

> Our pre-tax profit for 2011 was \$4.33 million; a 14% increase over 2010.

As we reflect on the past fifteen years we are most grateful and appreciative of the tremendous support we have received from our shareholders, board members, staff, and committee volunteers. Our growth and success has truly been remarkable considering our humble beginning with little more than the concept that "community development lending can be sustainable". With your assistance, we will continue making new and impactful loans as we address unmet credit needs throughout California and Nevada.
