Over \$227,000 in Financing for Small Business Expansion in a Severely Distressed Area

PoopMagician.com is a professional canine waste disposal service created to make life more convenient, enjoyable, and safe for pets and their owners.

Clearinghouse CDFI provided over \$227,000 in financing to support the expansion of this successful small business into a larger facility. The new Poop Magician headquarters offers enough space for the addition of several new employees, and will help sustain ongoing operational growth.

The acquisition of a new facility to house this flourishing small business will help create at least 10 new, full-time jobs and support small business growth in a severely distressed area of Las Vegas.

Clearinghouse CDFI addresses unmet credit needs in California, Nevada, Arizona, New Mexico, and Sovereign Nations in the Western United States.

We bridge the financing gap between conventional lending standards & the needs of low-income and distressed communities.
