**Consolidated Financial Statements  
with Report of Independent Auditors**

**December 31, 2019 and 2018**

Report of Independent Auditors

To the Board of Directors of  
Clearinghouse Community Development Financial Institution Companies:

*Report on the Consolidated Financial Statements*

We have audited the accompanying consolidated financial statements of Clearinghouse Community Development Financial Institution Companies, a California corporation, which comprise the consolidated balance sheets as of December 31, 2019 and 2018, and the related consolidated statements of income, stockholders' equity and cash flows for the years then ended, and the related notes to the consolidated financial statements.

*Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

*Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Clearinghouse Community Development Financial Institution Companies, a California corporation, as of December 31, 2019 and 2018, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

*Change in Accounting Principles*

As discussed in Note 2 to the consolidated financial statements, Clearinghouse Community Development Financial Institution Companies adopted changes in new accounting principles related to revenue recognition, the presentation and disclosure of the statements of cash flows, and financial instruments. Our opinion is not modified with respect to those matters.

*Report on Supplementary Information*

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating information in the Supplementary Information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position and results of the individual companies, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

**CLEARINGHOUSE COMMUNITY DEVELOPMENT  
FINANCIAL INSTITUTION COMPANIES**  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
December 31, 2019 and 2018

1. Organization and purpose

Clearinghouse Community Development Financial Institution (“CDFI”) and its wholly-owned subsidiaries, as listed below (collectively, the “Company”), are headquartered in Lake Forest, California. CDFI is a direct lender for affordable housing, community development and other nontraditional credit needs in California, Arizona, Nevada, New Mexico, and Native American communities in the Western United States. CDFI’s mission is to provide economic opportunities and improve the quality of life for lower-income individuals and communities through innovative and affordable financing that is unavailable in the conventional market. The majority of CDFI’s loans are to nonprofit organizations and other entities that provide affordable housing to low-income individuals, create jobs in economically disadvantaged areas or otherwise are engaged in community development activities. The U.S. Department of the Treasury (“Treasury”) has certified CDFI as a Community Development Financial Institution.

CDFI’s bylaws provide for fifteen directors. Affordable Housing Clearinghouse (“AHC”), the holder of CDFI’s Class B stock (see Note 12), nominates and elects eight directors, four of whom are community representatives and four of whom are lender representatives. CDFI’s Class A stockholders elect seven directors. This structure is intended to provide accountability to the low and moderate income populations which CDFI serves.

CDFI’s wholly-owned subsidiaries are as follows:

- CDFI Service Corporation
- Clearinghouse NMTC, LLC (“CDFI NMTC LLC”)
- Clearinghouse CREC (Sub 1), LLC (“CREC Sub 1”)
- Clearinghouse CREC (Sub 4), LLC (“CREC Sub 4”)
- Alamo QOZB, LLC

CDFI has several primary lines of business including core lending and new markets tax credits (“NMTC”) deployment. Core lending is primarily real estate-based lending that benefits lower-income individuals and communities unable to obtain credit from banks or other traditional lenders.

CDFI Service Corporation’s primary purpose is to liquidate assets acquired by CDFI. As of December 31, 2019 and 2018, CDFI Service Corporation had an OREO balance of \$2,058,000 and \$2,697,000, respectively. This amount is included in other real estate owned on the consolidated balance sheets. For the years ended December 31, 2019 and 2018, there were impairment losses recognized of \$639,000 and \$212,000, respectively.

CDFI NMTC LLC’s sole purpose was to make equity investments in and manage NMTC community development entities (“NMTC CDEs”). CDFI has incorporated the NMTC CDEs for the purpose of facilitating transactions resulting from federal and state of Nevada NMTC allocations awarded to CDFI. CDFI has been awarded \$538,000,000 and \$19,765,000 of federal and state of Nevada allocations, and deployed \$538,000,000 and \$8,000,000, respectively, to qualified active low-income community businesses since its inception.

CREC Subs 1 and 4 (collectively, the “CREC Subs”) were created for the primary purpose of purchasing and investing in income producing real estate properties. As of December 31, 2019 and 2018, the CREC Subs had primarily purchased and invested in multi-family housing and commercial properties, as further discussed in Note 5.

2. Summary of significant accounting policies and nature of operations

Basis of accounting

The Company prepares its consolidated financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Principles of consolidation

The consolidated financial statements include the accounts of CDFI and its wholly-owned subsidiaries, CDFI Service Corporation, CDFI NMTC LLC, and the CREC Subs. All significant intercompany accounts and transactions have been eliminated in consolidation. Unconsolidated investments are accounted for by the equity and cost methods of accounting.

Cash and cash equivalents

Cash and cash equivalents include all cash balances on deposit with financial institutions and highly liquid investments with a maturity of three months or less. The majority of cash is deposited with shareholder banks. The carrying amount of cash and cash equivalents approximates its fair value.

Restricted cash is not considered cash and cash equivalents, and includes cash pledged to BGP, as defined in Note 11C, or otherwise contractually restricted.

Concentrations of risk, including economic, geographic and credit risk

The Company maintains cash in bank deposit accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company monitors the financial statements and regulatory filings of those institutions for which the amount on deposit exceeds the federal insured limit. The Company believes it is not exposed to any significant credit risk on these bank deposits.

Generally, the Company originates loans secured by various types of real estate, including single family residential, multi family residential, commercial, and construction real estate. The Company periodically reviews its concentration among individual loan segments and individual loans. Although the Company establishes an allowance for loan losses believed to be appropriate for risk concentrations, future operations could be affected by adverse changes in credit risk from loans receivable (Note 3).

The Company lends in the California, Arizona, Nevada, New Mexico and Native American markets. Future operations could be affected by changes in economic or other conditions in those markets.

The Company's concentration in its largest borrowers has increased as a result of a greater average loan size. As of December 31, 2019 and 2018, the largest ten borrowers, on average, have outstanding balances of \$14,073,000 and \$12,709,000, respectively. In total, these comprise 29.9% and 29.6%, respectively, of the Company's loan portfolio.

FINANCIAL INSTITUTION COMPANIES**

December 31, 2019 and 2018

2. Summary of significant accounting policies and nature of operations (continued)

Fixed assets and depreciation

The Company records all fixed assets at cost, less accumulated depreciation. Depreciation for leasehold improvements is computed on a straight-line basis over the lives of the underlying leases, which range from 3 to 5 years. Depreciation for property and equipment is computed on a straight-line basis over the estimated useful lives of the property and equipment, which range from 3 to 5 years. Depreciation for sitework is computed on a straight-line basis over an estimated useful life of 15 years. Depreciation for buildings and building improvements is computed on a straight-line basis over the estimated useful lives of the buildings and building improvements, which range from 39 to 40 years. Depreciation expense for the years ended December 31, 2019 and 2018 was \$166,000 and \$149,000, respectively.

Income taxes

The Company files a consolidated income tax return for the federal government and various states, including California, Arizona, and New Mexico. The consolidated financial statements provide for the tax effects of transactions reported, and consist both of taxes currently due and deferred taxes.

Deferred tax assets and liabilities are determined based on temporary differences between financial statement asset and liability amounts and their respective tax bases. Temporary differences are differences between the tax bases of assets and liabilities and their reported amounts in the consolidated financial statements that will result in taxable or deductible amounts in future years. Deferred taxes represent the future tax return consequences of those differences, which will either be deductible or taxable when the assets and liabilities are recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized during such period as an adjustment to provision for income taxes. Deferred taxes are estimated using enacted laws and rates. The Company's temporary differences result from provision for loan loss deductions, accrued bonuses and payroll, impairment losses, and other miscellaneous income and expenses, which result in a net deferred income tax asset.

A valuation allowance is established if, based on the weight of the available evidence, it is more likely than not that some portion or all of the deferred income tax assets will not be realized. The valuation allowance reduces deferred tax assets to the amount the Company expects to realize. As of December 31, 2019 and 2018, there was no valuation allowance.

Due to the inherent complexities arising from the nature of the Company's business, the amount recognized is subject to significant management judgments and estimates with respect to the likely outcome of uncertain tax positions. The Company evaluates its uncertain tax positions. The Company recognizes the consolidated financial statement effect of a tax position when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. A loss contingency is recognized when it is probable that a liability has been incurred as of the date of the consolidated financial statements and the amount of the loss can be reasonably estimated. The amount recognized is an estimate subject to management judgment with respect to the likely outcome of the uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized.

2 Summary of significant accounting policies and nature of operations (continued)

Income taxes (continued)

Federal and state tax authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties assessed to the Company are recorded in operating expenses. For the years ended December 31, 2019 and 2018, interest or penalties from federal or state tax authorities of \$35,013 and \$0, respectively, are reflected in the accompanying consolidated financial statements.

Revenue recognition

The Company recognizes interest income on loans receivable and cash deposits as it is earned. Interest income on loans generally accrues on the net principal balance, based on the interest convention specified in terms of the loan agreements. The accrual of interest is discontinued when a loan becomes 90 days delinquent or, in management's opinion, the borrower may be unable to make payments as they become due. When the accrual of interest is discontinued, all unpaid accrued interest is reversed. Interest income is subsequently recognized only to the extent cash payments are received and the principal balance is believed to be collectible.

Unearned income, loan origination fees and unamortized premiums or discounts on purchased loans are deferred and the net amount amortized as an adjustment of the respective loan's yield. The Company amortizes these amounts over the contractual life of the respective loan using the effective interest method.

Loan fees include loan recoveries, late fees, servicing fees, prepayment fees, and the unamortized portion of loan origination fees, commitment fees, and discounts upon prepayment. The Company recognizes loan fees in the period they are earned, in accordance with the terms of the loan agreements.

The Company earns management fees for the management of related entities. Management fees are recognized in the period they are earned, in accordance with the terms of the respective management agreements.

Investment income is based on the performance of the companies in which the Company has made investments. Investment income is recognized in accordance with the method of accounting used for each investment, as discussed below.

Revenue from certain grants or awards with performance obligations is recognized as the underlying performance obligations are satisfied. These performance obligations are identified in the underlying agreements, can be varied in nature, and are generally satisfied ratably through performance until completion. As of December 31, 2019 and 2018, unrecognized revenue from these sources totaled \$3,224,000 and \$3,200,000, respectively. During the years ended December 31, 2019 and 2018, the Company recognized \$1,448,000 and \$1,007,000, respectively, from the performance of obligations related to these grants or awards.

2. Summary of significant accounting policies and nature of operations (continued)

Investments in other companies

The Company owns interests in other companies, as further discussed in Note 7. The Company has determined that the other companies are variable interest entities and the Company is not the primary beneficiary. As a result, the Company is not required to consolidate its investment in the other companies. This conclusion was based on the determination that the Company does not have the power to direct the activities that most significantly impact the other companies' economic performance. The Company's maximum exposure to loss as a result of its involvement with the investment is limited to the current investment balance.

The Company investment in Federal Home Loan Bank of San Francisco is recorded at cost pursuant to the measurement alternative provided by FASB ASC 321. The fair value of the investment is not estimated if there are no identified changes in circumstances that may have a significant adverse effect on the fair value of the investment.

The Company invests in the rehabilitation of historic buildings, for which it qualifies for historic tax credits ("HTCs") under Internal Revenue Code ("IRC") Section 47. The HTCs are earned ratably over a five-year period or entirely on the placed in service date ("PIS") of the rehabilitated building, if qualified under the transition rule, and result in a dollar for dollar reduction of federal income taxes payable. The HTCs are subject to recapture if the Company disinvests within five years of the PIS. For the years ended December 31, 2019 and 2018, the Company earned HTCs and reduced federal taxes payable in the amounts of \$914,000 and \$0, respectively.

The Company accounts for all other investments in other companies using the equity method of accounting, which requires that the investments are recorded at cost and adjusted for the Company's allocable share of income or loss, additional investments, and cash distributions from the other companies. Because the Company has no obligation to fund liabilities of the other companies beyond its investment, including loans and advances, investments in the other companies may not be reduced below zero. To the extent that equity losses are incurred when the Company's carrying value of its investment has reached a zero balance, any losses will be suspended to be used against future income.

The Company has implemented policies and practices for assessing impairment for its investments. Periodically, the carrying values are evaluated to determine if any impairment in value exists. If impairment exists, the carrying value is reduced to its estimated fair value, based on the net present value of estimated future cash flows and tax benefits expected to be received. For the years ended December 31, 2019 and 2018, there were impairment losses of \$610,000 and \$0, respectively.

Loans receivable and allowance for loan losses

Loans receivable are reported at the principal amount outstanding, net of unearned income, deferred loan origination fees, holdbacks, unamortized premiums or discounts on purchased loans, and an allowance for loan losses.

The allowance for loan losses is increased by a provision for loan losses, which is charged to expense, and reduced by charge-offs, net of recoveries. Management's periodic evaluation of the adequacy of the allowance is based on the risks inherent in the portfolio, specific impaired loans, and adverse situations. Although management uses information currently available to estimate losses on loans, because of uncertainties associated with local economic conditions, collateral values, and future cash flows on impaired loans, it is reasonably possible that new or updated information could result in a material change in the allowance for loan loss.

2. Summary of significant accounting policies and nature of operations (continued)

Loans receivable and allowance for loan losses (continued)

The Company considers a loan impaired when, based on current information or factors, it is probable that the Company will not collect all principal and interest due according to the loan agreement. Management considers many factors in determining whether a loan is impaired, such as payment history, borrower financial condition, and value of collateral. Loans that are contractually delinquent less than 90 days are generally not considered impaired, unless the borrower has filed bankruptcy or the Company is aware of specific information indicating loan impairment. The Company reviews delinquent loans to determine impaired accounts. When a loan is determined to be specifically impaired, the Company measures impairment by either using the fair value of collateral if the loan is collateral dependent, or the present value of expected cash flows discounted at the loan's effective interest rate, or, if available, at the loan's observable market price. As of December 31, 2019 and 2018, the allowance for specifically impaired loans was \$2,198,000 and \$3,426,000, respectively.

For the years ended December 31, 2019 and 2018, the amounts determined to be uncollectible and written off were \$2,726,000 and \$0, respectively.

Other receivables and prepaid expenses

Other receivables are stated at the net realizable value. Management closely monitors outstanding balances and provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that remain outstanding after management has used reasonable collection efforts are generally written off through a charge to the valuation allowance and a credit to the receivable. As of December 31, 2019 and 2018, there was no allowance for doubtful accounts.

Fair value measurement

The Company reports balances that are required or permitted to be measured at fair market value in accordance with existing accounting pronouncements. Fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based upon the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, a fair value hierarchy is used that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three levels of the fair value hierarchy: (1) the fair value is based on quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date; (2) the fair value is based on significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data; and (3) the fair value is based on significant unobservable inputs that reflect the Company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

2. Summary of significant accounting policies and nature of operations (continued)

Fair value measurement (continued)

Management has determined that fair value classification and disclosure is appropriate only for specifically impaired loans and OREO assets. All other assets, such as loans receivable, operating investments, and investment in other companies, are recorded at historical cost or, for some investments, under the equity method of accounting. The fair value of the specifically impaired loans and OREO assets are based on significant unobservable inputs. As of December 31, 2019 and 2018, the carrying value of specifically impaired loans, net of impairment, were \$4,587,000 and \$6,329,000, respectively.

Use of estimates

The preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term are the allowance for loan losses and estimates of future tax rates.

Subsequent events

Subsequent events have been evaluated through March 23, 2020, which is the date the consolidated financial statements were available to be issued.

Changes in accounting principles

On January 1, 2019, the Company adopted ASU No. 2014-09, a new accounting standard that affects the accounting for revenue. The Company's revenue is mainly derived from interest income on loans receivable and other fees, which are not impacted by this standard. Adopting this standard did not have a significant impact on the financial statements.

On January 1, 2019, the Company adopted ASU No. 2016-18, a new accounting standard that affects the statement of cash flows. The new standard requires the statement of cash flows to explain the change in cash, cash equivalents and restricted cash. Previously, changes in restricted cash were presented in the statement of cash flows as operating, investing or financing activities depending upon the intended purpose of the restricted funds. The effect of the revisions to the statements of cash flows for the year ended December 31, 2018 is as follows:

	<u>As Previously Reported</u>	<u>Adjustments</u>	<u>As Revised</u>
Net cash flows from investing activities	\$ (97,810,000)	\$ 3,253,000	\$ (94,557,000)

On January 1, 2019, the Company adopted ASU No. 2016-01, a new accounting standard for financial instruments that affects the accounting for certain equity investments (formerly cost-method investments). The new standard requires such investments to be reported at fair value unless such investments do not have a readily determinable fair value and the Company elects a measurement alternative. Adopting the standard did not have a quantitative impact on the consolidated financial statements due to the nature of the Company's investments.

3. Loans receivable

The Company's loan portfolio is composed of loans that are primarily secured by commercial real estate. This collateral is concentrated primarily in Southern California, Northern California, and Nevada, and includes collateral located in various counties throughout the aforementioned states. As of December 31, 2019 and 2018, real estate-secured loans accounted for substantially all loans. Most of these loans are secured by first trust deeds with an initial loan-to-value ratio generally not greater than 80% and debt service ratio generally not less than 1.10.

The Company's loan portfolio consisted of the following at December 31, 2019 and 2018:

	2019	2018
Loans receivable	\$ 535,692,000	\$ 486,990,000
Less: Unearned loan fees	(5,114,000)	(4,934,000)
Discounts on purchased loans	(60,000)	-
Holdbacks	(68,190,000)	(33,903,000)
Allowance for loan losses	(17,415,000)	(18,061,000)
Total loans receivable, net	<u>\$ 444,913,000</u>	<u>\$ 430,092,000</u>

Unearned loan fees are fees that were charged to borrowers at origination, which the Company is amortizing over the life the respective loans.

Discounts and premiums on purchased loans are the difference between the note amount and the purchase amount at the time of purchase, adjusted for refinancing after purchase, if any. The Company amortizes purchase discounts and premiums over the life of the respective loans.

Holdbacks are amounts that are contractually available to borrowers, but that have not been disbursed. These amounts have been committed to borrowers, who generally have the right to draw upon them under the terms of the loan agreement. Holdbacks also include amounts reserved to pay interest on the outstanding portion of loans, which are included in the net loans receivable balance under the terms of the respective loan agreements.

For the years ended December 31, 2019 and 2018, the Company's loan portfolio had a weighted-average coupon of 6.63% and 6.68%, respectively.

4. Allowance for loan losses

The Company's allowance for loan losses was as follows for the years ended December 31:

	2019	2018
Balance, beginning	\$ 18,061,000	\$ 15,278,000
Provision for loan losses	2,080,000	2,783,000

4. Allowance for loan losses (continued)

During 2019 and 2018, the Company had average outstanding balances of loans past due over 90 days of approximately \$6,227,000 and \$4,637,000, respectively. For the years ended December 31, 2019 and 2018, the Company recognized interest income from these loans of approximately \$738,000 and \$0, respectively.

5. Operating investment (CREC)

On May 19, 2015, the Board of Directors approved a plan to create the Clearinghouse Real Estate Company (“CREC”), consisting of various individual CREC Subs, to purchase real estate with the intent to stabilize, revitalize and improve communities. The Company expects to hold these properties for the production of income, with future evaluation for sale at a later date.

As of December 31, 2019 and 2018, the Company operated 1 and 9 properties, respectively. During 2019 and 2018, the Company sold 8 and 0 properties, respectively.

A combined summary of the financial position of the CREC Subs and the results of their operations as of and for the years ended December 31, 2019 and 2018 included in these consolidated financial statements was as follows:

7. Investment in other companies

The Company has investments in other companies. These investments are accounted for as discussed in Note 2. The other companies are:

Federal Home Loan Bank of San Francisco

As a condition of membership, the Company is required to purchase stock in Federal Home Loan Bank of San Francisco (“FHLB-SF”). The amount of stock required is generally increased as the amount of borrowings or advances increases and decreased by any redemptions by the FHLB-SF. As of December 31, 2019 and 2018, the Company had stock investments of \$1,988,000 and \$1,674,000, respectively. For the years ended December 31, 2019 and 2018, the Company earned dividends of \$127,000 and \$126,000, respectively.

NMTC CDEs

CDFI NMTC LLC and CDFI are the managing members of the NMTC CDEs with ownership interests of generally 0.01%. The NMTC CDEs have been organized to encourage and assist qualified individuals, corporations and financial institutions to invest in qualified active low income community businesses located primarily in California, Nevada, Arizona, New Mexico and Native American lands in the Western United States, which investments constitute qualified low-income community investments under the NMTC provisions of IRC Section 45D. As of December 31, 2019 and 2018, CDFI’s aggregate investment balance, net of distributions, was \$(16,000). This amount is included in investment in other companies on the consolidated balance sheets.

A combined summary of the financial position of the NMTC CDEs and the results of their operations as of and for the years ended December 31, 2019 and 2018 is as follows:

Investments in HTC Companies and Other Companies

The Company from time to time makes additional investments in order to support its strategic goals. These investments include contributions to entities eligible to receive Historic Tax Credits, which provide a reduction in the Company's income tax liability, contributions to loan funds which sponsor community development services, and investments in other companies. As of December 31, 2019 and 2018, the total investment balance was \$948,000 and \$574,000, respectively. For the years ended December 31, 2019 and 2018, income from investments in HTC and other companies was \$97,000 and \$79,000, respectively.

CRA Investment Fund

In 2007, the Company established Clearinghouse CRA Investment Fund, LLC ("CRA IF"). The purpose of CRA IF was to enable qualified investments in community development projects throughout California. During 2018, CRA IF was discontinued. For the years ended December 31, 2019 and 2018, income from CRA IF was \$0 and \$80,000, respectively. As of December 31, 2019 and 2018, the Company had no investment balance in CRA IF.

8. Investment in Opportunity Zones

The Company invests in residential and commercial rental real estate development projects through lower tier entities which themselves qualify as qualified opportunity zone businesses, located in “qualified opportunity zones” (“Opportunity Zones”), as designated by the Tax Cuts and Jobs Act. The Company intends to maintain Qualified Opportunity Fund (“QOF”) status which will allow it to provide certain tax benefits available to investors through the Internal Revenue Code of 1986, as amended, particularly the rules relating to Opportunity Zones set forth in Sections 1400Z-1 and 1400Z-2 and any other Treasury regulations or other U.S. Internal Revenue Service guidance promulgated thereunder. During 2019, the Company made two Opportunity Zone investments. The first investment was a contribution to a QOF in the amount of \$498,000. The second investment was for the purchase of land in an Opportunity Zone in the amount of \$1,417,000. As of December 31, 2019 and 2018, the total investment balance in opportunity zones was \$1,915,000 and \$0, respectively. For the years ended December 31, 2019 and 2018, income from investment in opportunity zones was \$91,000 and \$0, respectively.

9. Lines of credit

First Foundation Bank

On July 19, 2016, CDFI entered into a business loan agreement with First Foundation Bank for a line of credit in the maximum amount of \$10,000,000. Interest accrues at the greater of the WSJ Prime Rate plus 0.50%, or 4.00%. As of December 31, 2019 and 2018, the interest rate was 5.25% and 6.00%, respectively. The line of credit matures on August 1, 2019, which was subsequently amended to mature on August 1, 2020. As of December 31, 2019 and 2018, the outstanding balance on the line of credit was \$0 and \$8,000,000, respectively.

State Bank of India (California)

On January 5, 2018, the Company entered into a loan and security agreement with State Bank of India for a line of credit in the maximum amount of \$7,500,000. Interest accrues at the WSJ Prime Rate plus 0.50%. As of December 31, 2019 and 2018, the interest rate was 5.25% and 6.00%, respectively. The loan matures on January 5, 2019, which was subsequently amended to mature on January 5, 2020. As of December 31, 2019 and 2018, the outstanding balance on the line of credit was \$5,000,000 and \$3,000,000, respectively.

Charles Schwab Bank

On December 31, 2014, CDFI entered into a loan and security agreement, as amended from time to time, with Charles Schwab Bank for a revolving credit facility in the maximum amount of \$35,000,000. The proceeds are to be used to fund construction loans in certain western states. Interest accrues at the greater of the 3-month LIBOR plus 1.75% or 3.00%. As of December 31, 2019 and 2018, the interest rate was 3.8386% and 4.1481%, respectively. The revolving credit facility matures on December 31, 2020, and potentially amortizes through December 31, 2024 subject to the Company’s election and the satisfaction of certain conditions. As of December 31, 2019 and 2018, the outstanding balance on the line of credit was \$30,333,000 and \$24,333,000, respectively.

2024	7,584,000
Total	<u>\$ 35,333,000</u>

10. Interest-bearing and non interest-bearing deposits

Interest-bearing deposits

The purpose of these deposits is to provide credit and other financial services to help revitalize low-income communities by financing affordable housing developments, small businesses, community facilities and similar projects. The weighted average interest rate as of December 31, 2019 and 2018 was 2.5% for both years and the interest-bearing deposits totaled \$250,000 for both years. The remaining interest-bearing deposit matures during 2020.

Non interest-bearing deposits

CDFI accepted non interest-bearing deposits from several of its stockholders and other investors, in order for them to receive a California state tax credit. These deposits mature in three to five years from the date of the deposit. As of December 31, 2019 and 2018, non interest-bearing deposits totaled \$4,850,000 and \$5,450,000, respectively. The deposits mature as follows:

Years ending December 31,	
2020	\$ 1,100,000
2021	2,500,000
2022	1,250,000
Total	<u>\$ 4,850,000</u>

11. Notes payable

A. Notes payable, Class A stockholders

Notes payable, Class A stockholders reflect payable commitments resulting from one remaining balance of two private placement memoranda, (“Second PPM” and “Third PPM” respectively, or collectively, “PPMs”), and from their respective Credit Agreements, the terms of which are described below.

The Second PPM, approved in 1999, was repaid during 2019. The Third PPM was approved in 2003 and enabled investors to select the ratio of lending commitment to new equity based upon certain criteria specified in that PPM.

A. Notes payable, Class A stockholders (continued)

Under the Second PPM's credit agreement ("Second Credit Agreement") between CDFI and the investors, the borrowings bear interest at a fixed rate determined by the one-year U.S. Treasury rate (as reported in the Wall Street Journal) plus 1% at the date of each borrowing. Interest on the borrowings is payable quarterly. As of December 31, 2019, the Second Credit Agreement had been paid in full. As of December 31, 2019 and 2018, the Second Credit Agreement had a fixed weighted average interest rate of 0% and 3.02%, respectively.

Under the Third PPM, there was a credit agreement ("Third Credit Agreement") which provides for variable interest rates. The rate adjusts annually based upon the weekly 10 year CMT plus 10 basis points, generally, with a maximum periodic cap of 100 basis points, a lifetime cap of 500 basis points and no floor. The Third Credit Agreement was partially prepaid in 2008 and 2009 and the Board of Directors established a plan for repayment of all principal no later than December 2024. As of December 31, 2019 and 2018, the Third Credit Agreement had a weighted average interest rate of 2.17% and 3.08%, respectively.

As of December 31, 2019, balances outstanding under these notes payable totaled:

	<u>Second Credit Agreement</u>	<u>Third Credit Agreement</u>	<u>Total</u>
Original Borrowing	\$ 26,900,000	\$ 28,000,000	\$ 54,900,000

C. CDFI Fund Bond Guarantee Program

During 2014, the Company became eligible to participate in the CDFI Fund’s Bond Guarantee Program (“BGP”). The BGP allows the Company to draw separate borrowings (“Advances”) up to a specified amount as the Company originates qualifying Secondary Loans, as defined under the terms of respective BGP agreements (“BGP Facilities”). The Advances are in turn secured by the assignment of those Secondary Loans plus a cash reserve of 3% of the Advance amount. For each BGP Facility, 50% of the Advances must be drawn or committed to such collateralized loans by the first anniversary of the BGP Facility, and 100% by the second anniversary. If either minimum is not achieved, the shortfall is deducted from the total Advances available to the Company.

Each Advance is priced at the time of the Advance based on the then current Federal Financing Bank rate, plus additional risk premia and servicing fees. Each Advance has a term, as selected by the Company, of between ten and thirty years from the date of the respective BGP Facility, is generally interest only for the first two years, and thereafter commences amortization based on its respective maturity date. Payments under the BGP facilities are semi-annual in arrears. As of December 31, 2019 and 2018, the Company had undrawn BGP Facilities of \$79,000,000 and \$143,000,000, respectively.

For the year ended December 31, 2019, Advances under the BGP Facilities totaled \$255,395,000. These Advances had a weighted average yield of 3.22%, and a weighted average maturity date of March 2041. For the year ended December 31, 2018, Advances under the BGP Facilities totaled \$197,290,000. These Advances had a weighted average yield of 3.39%, and a weighted average maturity date of May 2043.

Advances consist of the following as of December 31,

	2019	2018
Principal balance	\$ 255,395,000	\$ 197,290,000
Less: unamortized debt issuance costs	(1,082,000)	(1,125,000)
Note payable, net of unamortized debt issuance costs	\$ 254,313,000	\$ 196,165,000

Debt issuance costs are being amortized to interest expense over the terms of the Advances. During 2019 and 2018, amortization expense for debt issuance costs was \$42,000 and \$35,000, respectively.

D. Federal Home Loan Bank of San Francisco

In February 2011, the Company was admitted as a member of the FHLB-SF. This membership allowed the Company a financing availability at December 31, 2019 and 2018 of \$66,000,000. The Company was required to make a stock investment and to pledge certain specific loans as collateral sufficient to support the Company’s borrowing capacity. The Company may borrow against this borrowing capacity, at its discretion, in maturities ranging from overnight to five years. As of December 31, 2019 and 2018, the Company had made stock investments in FHLB-SF as described in Note 7.

During 2018, the Company entered into a fixed rate advance with FHLB-SF with a maturity date of October 25, 2028. The advance bears interest at 3.46%, with interest payable quarterly. As of December 31, 2019 and 2018, the Company has an outstanding fixed rate advance of \$9,096,000.
