WHAT IS A B CORPORATION?

B CORP COMMITTEE

Clearinghouse CDFI is proud to be a certified B Corp. Since our inception in 1996, we have been avid believers that a company can make a profit while doing good.

We made it a mission to run a successful, for-profit Community Development Financial Institution that creates measureable impacts in the community. It was only natural for us to join the B Corp movement in 2014.

As a certified B Corp, we meet rigorous standards of social and environmental performance, accountability, and transparency. As part of the B Corp community, we believe that businesses should be conducted as if people, place, and stakeholder benefits all matter. We strive to meet a triple bottom line: people, profit, and planet.

The right way isn't always the easy way, but we are confident that we, as a network of businesses, can be a force for good. We encourage other business to join us in this movement. Let us work together to change how business is done.
