Jacqueline Aguilar – Professional Summary

Jacqueline (Jackie) grew up in Norwalk, CA with her grandparents. She has been happily married for 10 years and has three teenage sons and one daughter—her best friend. Jackie is the definition of a busy mom with all kids active in sports year-round. She can't wait to cheer on her oldest son, who is starting his high school football career! Jackie has proudly served as a volunteer board member for her kids' pop league for 6 seasons. She enjoys taking her family to Dodger games, spending holiday weekends in Big Bear, and binge-watching Netflix shows.

Jackie first joined the CCDFI Team in 2021 as Receptionist/Office Assistant/Notary and was recently promoted to a new position in 2022 as CCDFI's Information Technology (IT) & Office Administrator. In her new role, Jackie works directly with staff to resolve daily IT issues. She also manages CCDFI's Nationwide Multistate Licensing System (NMLS) licenses as the company continues expanding nationwide. Jackie loves working for a company that gives back to the community and is grateful to be a part of the CCDFI Team!

Congratulations, Jacqueline!
