Clearinghouse CDFI Finances Medically Tailored Meal Provider through NMTC

Clearinghouse CDFI provided \$10 million of NMTC allocation to support Mama's Kitchen, a San Diego-based nonprofit providing home-delivered, medically tailored meals and nutrition services to individuals living with serious illnesses. This includes cancer, HIV/AIDS, congestive heart failure, type 2 diabetes, and chronic kidney disease. The organization also serves residents of rural and Tribal communities who face compounded barriers to care.

This project supports operational stability during federal funding reductions, ensuring the continued delivery of no-cost meals to medically vulnerable individuals living in economically distressed communities across San Diego. Each year, Mama's Kitchen provides more than 900,000 medically tailored meals to 5,165 individuals, with the capacity to exceed one million annually.

Clearinghouse CDFI addresses unmet credit needs nationwide and in Indian Country through direct lending, equity investments, and financial assistance.

We bridge the financing gap between conventional lending standards & the needs of low-income and distressed communities.
